---

Wireless phone users can download a free application that lets them browse the news and The Augusta Chronicle's related Web sites.

Augusta on the Go is available for downloading today at [augustaonthego.com](http://augustaonthego.com).

"We are pleased to offer a new level of electronic technology free of charge to the community," said Don Bailey, Chronicle president. "The product makes mobile information available to anyone who has the capability to download an application on a mobile device."

The application gives mobile device users access to information such as local and national news, restaurant guides, sports, movie times, local events, weather, horoscopes and stocks.

Atlanta-based Terratial Technologies designed the application software.

Users will have access to Chronicle content, North Augusta Today and Columbia County News-Times . Other publications are accessible, including Augusta Magazine, Augusta Family, Skirt! and Stop N Shop.

"The power of The Augusta Chronicle portfolio is unmatched, and this new component only adds to the strength of our products," Mr. Bailey said.

A launch party for Augusta on the Go will be held Dec. 12. Three members of Collective Soul will perform at the Bell Auditorium, along with country music singer Clay Cumbie and local band Edison Project.

Doors will open at 7 p.m., and the performances will begin at 8 p.m.

Access to the party is granted to those with the application on their phone.
